

## **COVID-19; HEALTH CONCERNS VS FINANCIAL CONCERNS**

As was noted in the June 2020 E-mail Newsletter, during the June 10<sup>th</sup> SCWIE Quarterly Conference Call, several informal state surveys of staff from small community systems indicated a greater concern for employees' health than for the financial well being of the system.

Representatives from Oklahoma have provided their survey and the staff from RCAP Rural Community Assistance Partnership presented a webinar several weeks ago. The slides from the webinar can be downloaded from the attached pdf and the webinar video can be found at
